

Project Initialization and Planning Phase

Date	18 July 2026
Team ID	TBD
Project Name	Voice Based Concept Understanding Analyser
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A student preparing for examinations	Explain my concepts through voice	I don't know whether my explanation is conceptually correct	Manual evaluation is slow and feedback is delayed.	Uncertain about my understanding and performance
PS-2	A faculty member	Evaluate students' conceptual understanding	Manual assessment takes significant time	Every student's response must be reviewed individually	Overloaded and unable to provide instant feedback
PS-3	An educational institution	Improve assessment quality	Traditional evaluation methods are difficult to scale	Large numbers of students require continuous evaluation	Need an AI-based automated assessment system
