

Customer Journey Map

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	- Opens the application. - Reads the instructions. - Selects the evaluation option.	- Records or uploads the voice response. - Waits for transcription. - Starts evaluation.	- Views transcript. - Reads AI feedback. - Downloads PDF report.
Touchpoint <i>What part of the service do they interact with?</i>	- Home Page - User Interface - Instructions Page	- Voice Recorder - Whisper Speech-to-Text Module - AI Evaluation Engine	- Dashboard - Feedback Page - PDF Report - History Module
Customer Thought <i>What is the customer thinking?</i>	- I hope this system is easy to use. - Will my voice be evaluated correctly? - Can this improve my learning?	- Is my voice clear enough? - Is the system understanding my explanation? - When will I receive feedback?	- Now I know where I need improvement. - My understanding has become clearer. - I'll practice again to improve.
Customer Feeling <i>What is the customer feeling?</i>	- Curious - Slightly nervous - Interested	- Focused - Hopeful - Excited	- Satisfied - Motivated - Confident

Date	18 March 2026
Team ID	TBD
Project Name	Voice Based Concept Understanding Analyser
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Process Ownership <i>Who is in the lead on this?</i>	. Student	AI System (Whisper + Semantic Similarity + Gemini AI)	Student & AI System
Opportunities <i>How can we improve this stage?</i>	- Provide a simple interface. - Give clear recording instructions. - Add a microphone test before recording.	- Improve transcription accuracy. - Reduce evaluation time. - Show evaluation progress.	- Personalized learning recommendations. - Performance graphs.
